In January, seven of the fourteen Kansas Court of Appeals judges decreed that the right to dismember live babies in the womb is protected by our state Constitution!

This is the first ever court case in Kansas history where judges have ‘discovered’ an abortion ‘right’ embedded in our 1859 state Constitution.

Ironically, Kansas made abortion illegal 5 years before our state Constitution was ratified. It is thus unreasonable to believe the authors of our Constitution ever intended to insure any abortion protection --much less the right to dismember a living, well-formed unborn child!

This ruling threatens all Kansas pro-life laws and could usher in taxpayer-funded abortion!

Shown below are the 7 Court of Appeals judges who have discovered a state ‘right to abortion.’ Only 4 of them (in the dark box) will be on the November 2016 ballot.

7 judges have declared that a ‘fundamental right to abortion’ can be found in the Kansas Constitution’s Bill of Rights, Section 1, which reads, “All men are possessed of equal and inalienable natural rights, among which are life, liberty, and the pursuit of happiness.”

Do YOU think these words protect abortion?

Judge for yourself!

YOU have a choice in November whether or not to keep activist judges in office.
